MAN IN EUROPE WISHES HE WERE AN AMERICAN

English Exporter of Fancy Stock
 Longs for the War to End.

One man in England wishes he were an American. He is Alfred H. Green of Hull, an exporter of fancy exhibition stock, and his naive confession is contained in a letter to M. H. Wagner, 1901 North Capitol street, dated August 10, which Mr. Wagner has just received.

"I wish I was an American myself, sometimes, as things are not so good at present," writes Mr. Green. "We had a Zeppelin raid last night, twenty miles off. Expect they killed sixty people. All Hull was in total darkness. All the lights are put out as soon as these Zepps are sighted, and we all have to leave our homes for safety. You see, as soon as the authorities get the wire, the hooters and buzzers go, and it means all soldiers and civic guards out, and the public move into the country."

All Done for Public Safety.
 "So you can sympathize with me having a night out last night. Of course it is not compulsory to go, but all is done for the public safety, and so it is wise to move. I had one dose and know when they drop us a compliment something goes, as the soldiers say, 'west.'"

"I wish it was all over. I don't know how we shall go on yet, as it looks as though we all look like being made to do something. I am exempt, I believe, because I am not medically and physically fit for that kind of work; however, that is immaterial. It is more like a moving picture drama than merry England just now."

was annoyed, though, because I had just finished business, dressed and was going to the picture palace, and I had to hurry back to move to the country."

KNOW SOME OF MOB THAT KILLED FRANK

Georgia Officials Expected to Lay Information Before Governor This Week.

JUDGE AND PROSECUTOR TO INVESTIGATE CRIME

Cobb County Grand Jury Meets September 1—Marietta Folk Deny Knowledge of Lynchers.

ATLANTA, Ga., August 21.—It was intimated in official circles here tonight that the identity of a member of the so-called "vigilance committee" that lynched Leo M. Frank was known to certain officials, and that the information probably would be laid before Gov. Nat. E. Harris next week.

Nothing that seemed likely to lead to identifications of any of the men had come to the governor today, he announced. He said early in the day that he was not making public the steps he had taken to investigate the abduction and lynching, and this caused some speculation. The statement even was interpreted by some to mean that he knew who some of the men were, but he later said there was no such significance to his words.

Gov. Harris today conferred with Herbert Clay, solicitor for the Blue Ridge circuit, in which Cobb county is situated, and Judge J. M. Patterson, superior court judge in that circuit. After a long conference late this afternoon, the governor said he was known that he would prepare a special charge to the grand jury which will meet September 1.

Mr. Clay assured the governor he would do all within his power to find out the names of all men responsible for the lynching.

Identity Unknown.
 It has been reported from time to time that the identity of many members of the lynching "committee" was known to a majority of the residents of Marietta. Diligent inquiry by persons who know Marietta and her people proved these reports untrue. The people of Marietta either do not know or do not want to know who constituted the lynching party.

The trunk of the oak tree to which Frank was hanged was entirely covered with cotton bagging—the jute material that covers cotton bales. This was done at the direction of Mr. Frey, owner of the place, to protect the bark from the souvenir hunters. Men from the nearby cotton guard the tree day and night. Mr. Frey reiterated today that he had been offered as high as \$250 for the tree. He refused to sell.

"I did not need the money," he said, "and besides, Mary Phagan's folks don't want that tree cut down. Several of her people came out here today. They hugged and patted that old tree, and then they stood still and looked upward for a long time. I think they must have been praying."

Stops Sale of Photos.
 City council today unanimously passed an ordinance making it unlawful to sell in Atlanta a photograph of the body of a person who has been hanged illegally.

Licenses were issued to three persons here to sell post card photographs of the body of the dead white man still hanging. Acting Mayor Ragsdale, when he learned of this, ordered that no more licenses be issued. City council today instructed the city clerk to revoke these licenses and return the license fees.

MACHINIST OFFICIALS EAGER FOR FIELD WORK

Executive Board to Meet Today to Hurry Along Matters Needing Attention.

In order that members of the executive board of the International Machinists' Association may get into the field as soon as possible and try to affect conciliatory measures without strikes in those localities in which strikes are threatened, a session of the board is to be held today. It is probable, however, that even by working all of today so much work will remain for the board until late tomorrow evening.

President William H. Johnston announced last evening that prospects for the machinists, as well as many other employees in the districts where labor questions are being agitated, are continuing to improve and that progress is being made "all along the line."

Word of a number of additional strikes was received yesterday, as well as concessions by a large number of employers.

Strikes Declared.
 The Toledo Machine and Coal Com-

pany has granted an eight-hour day. Several smaller firms, as well as the du Pont Company at Wilmington, Del., have granted an eight-hour day. Strikes have been declared at the following firms, however: Hollingsworth & Jones, Remington Machine Company and Trumpp Bros. Machine Company. It is expected that the difficulties at these places will be settled in a day or two.

A strike has also been sanctioned at the Guernsey Ball Bearing Company at Jamestown, N. Y. According to information received by the executive board this firm presented pledges to their employees upon hiring them setting forth that "In accepting employment of the Guernsey Ball Bearing Company I certify that I am not now affiliated with any labor organization and that I will not join any while I am employed by the firm."

A movement was recently started to organize a union there. A number of

the men were dismissed as the result, following which 200 other employees went on strike.

Several more firms in Bridgeport have made concessions to their employees. At the meeting of the local there last evening 300 new members were taken in.

Prospects Bright.
 Summing up the results of the week last evening President Johnston declared that not only were the prospects bright for machinists, but declared that other workers throughout the country were being benefited by the agitation of the machinists.

CUP FOR U. S. SKIPPER.
 Capt. Blackler of the Ruby Honored by British Government.

Acting Secretary Sweet of the Department of Commerce has received from Secretary of State Lansing and forwarded to Collector of Customs Berry at Philadelphia a handsome silver loving cup which the British government has asked to have presented to Capt. Charles Edward Blackler, master of the American merchant steamship Ruby of Philadelphia, for rescuing the officers and seamen of the British ship Harpalycie, sunk in the North sea April 10.

The Harpalycie was chartered by the American Belgian relief committee, and she had just carried, under safe

conduct from the German minister at The Hague, a cargo of provisions and supplies purchased with subscriptions of Americans for the relief of Belgians, when she was sunk by a German submarine near the North Hinder light-ship.
